

Hold me like a child

Hold me like a baby, hold me like a child
You're always there for me when I'm running wild
I know that You can keep me safe from all alarms
So, won't You hold me like a baby in Your arms?

Hold me like a father, hold me like a child
You're so strong and it's been too long
We've been unreconciled
But You will be my hiding place, so secure and good
So, won't You hold me just the way a father would?

Hold me like a baby, hold me like a child
You're always there for me when I'm running wild
I know that You can keep me safe from all alarms
So, won't You hold me like a baby in Your arms?
Won't You hold me like a baby in Your arms?

(Hold me like a child)

Come on and hold me like a baby in Your arms
