

Spirit level

Spirit level, Spirit level; no more running with the devil
In Your sacredness I'll revel, living on the Spirit level

Make a pathway for my feet
In Your love I am complete
In a wilderness out there a highway for You I prepare

Spirit level, Spirit level; no more running with the devil
In Your sacredness I'll revel, living on the Spirit level

Turning crooked into straight, enter by a narrow gate
Speaking messages You gave
So that all can know You save

Spirit level, Spirit level; no more running with the devil
In Your sacredness I'll revel, living on the Spirit level

***Every valley, be upraised. Every mountain fall!
Making level pathways - You are Lord of all, of all***

Spirit level, Spirit level; no more running with the devil
In Your sacredness I'll revel, living on the Spirit level

From the token that is poor to Your revelation pure
Words to bind up, words to soothe
Making rocky places smooth

Spirit level, Spirit level; no more running with the devil

In Your sacredness I'll revel, living on the Spirit level
